First, inspired mainly by the camaraderie and excitement of working on the Justice, I worked as a newspaper reporter at the Sentinel and Enterprise, in Fitchburg, Mass., where I wrote about city hall, schools, and colorful locals of all sorts. It was an amazing immersion in local government and in the importance of local news in small communities. Though I continue to love journalism and devour good writing, I decided after a year there to veer back toward my college major, psychology, and I began working as a research assistant to a psychiatrist (who is also an anthropologist) at Massachusetts General Hospital. We were studying the intersection of culture and mental health, especially in the context of rapidly shifting cultures and immigration. After that, I sought more direct clinical work and worked for two years as a clinical educator in the adolescent acute residential treatment program at McLean Hospital, in Belmont, Mass. I absolutely loved this position, both for the teenagers I was able to help (and learn from), and for the collaborative, supportive collegial environment. In fall 2010, I began a Ph.D. program in clinical psychology at George Mason University, in Fairfax, Va.
In other news, in the fall of 2006, I began dating Avi Kaufman '03, and we are planning to get married next summer. :) I have also been fortunate to travel to Barcelona and Honduras, among other places, with him.

After graduating, I taught 7th and 8th grade math in Brooklyn, NY as part of the Teach for America program, during which I got a Masters in Teaching. In 2008, I moved back to the Boston area, and lived in Cambridge. In January 2009 I started working for an investment adviser in Cambridge and got engaged shortly after in April 2009. In the summer of 2009 I moved to Brookline, MA. I got married in June 2010 and got a puppy (a Westie) in August that year. In January 2011 I started working for a compliance consulting firm to hedge funds, private equity firms and other private investment funds. I love my life in Brookline!

IV. Brandeis Memories

What dorms/houses did you live in? Freshman year I lived in Massell - Usen. Sophomore year I lived in East in the Pomerantz section. People say East is not a good place to live, but I think it was my favorite year on campus. Junior year I studied abroad at the London School of Economics, and senior year I lived in the Mods.

What was your favorite place to go on campus? My favorite places were the cafe in Lemberg (the business school building), the student lounge in the Shapiro Campus Center and the upper part of Usdan dining hall. There were many outdoor spots that I also enjoyed.

Who was your favorite professor? Professor Coiner (Economics)

What was your best memory from college? It is difficult to remember one specific memory, but overall my favorites are all the late nights of staying up and trying to study, hanging out with friends and trying to study.

What was your best memory from college? Too many to choose from….

What were your fears about graduating? I was lucky. I was part of the BA/MA program in the Business school so I knew I would be back at Brandeis the following year. When I finished my program, I think my fears were typical of any graduate: finding a job, feeling prepared, keeping in touch with friends, etc.

How do you feel about Brandeis since graduation and how do you think others perceive it? We as alumni need to continue to spread the word of all the wonderful programs that the university offers to its students. Our education will only become that more valuable!
How do you feel about the changes on campus (new president, many new buildings, etc.)?
The new buildings are fantastic! Brandeis is clearly making sure it has the facilities to compete with all of the top colleges. I have not met President Lawrence yet, but I look forward to hearing about his ideas for future of the university.

Who do you keep in touch with from Brandeis? I am lucky to have made wonderful friends at Brandeis. I would say I still keep in touch with 20+ of my college friends, many of whom live in NYC with me! Whether it is a Yankee Game, a movie in Bryant Park or dinner in the city, we always have a good time!

What classmate has impressed you since graduation and why? I think the members of the Class of 2006 have done really well since graduating five years ago. I look forward to hearing more about everyone’s accomplishments!

How do you feel about Brandeis since graduation and how do you think others perceive it? I am very proud to have attended Brandeis and I hope that others feel the same way. It was a great education and a great time in my

My chosen career path is the direct result of graduating from the HSSP program. It was during Global Perspectives on Health (Dr. Sarita Bhalotra) that I discovered my passion for global health. Immediately after graduating from Brandeis, I spent two years working at MGH doing tobacco and smoking cessation research. I just finished my third year of an MSPH/PhD program in epidemiology at UNC Gillings School of Global Public Health. Within epidemiology, my focus is infectious diseases, particularly sexually transmitted infections. My interests include women's health and the psychosocial factors (male partner support, social support, gender imbalances, stigma, etc) that influence uptake and adherence to treatment and care. I have had the opportunity to do research in India, and I hope to travel to the Democratic Republic of the Congo or South Africa for my dissertation. The required epidemiology and biostatistics course for the HSSP major truly influenced my academic and professional life.

I got engaged to another Brandeis graduate! And in keeping with my previous status as the token board member of the Brandeis feminist club, that other graduate -- a female -- proposed to me! It was really cutting edge stuff.

I'm also leaving my job soon to go get a PhD in biostatistics at the University of Michigan. Go Blue!

IV. Brandeis Memories

What dorms/houses did you live in? Renfield, Hassenfeld, Ridgewood, and then the smelly and loud flat above Cappy's.

What was your favorite place to go on campus? Can I say Chums? No? OK, well then how about that nice balcony overlooking Boston?

Who was your favorite professor? Paul Monsky and David Roberts

What clubs or groups were you a part of? Waltham Group and FMLA mostly, and I briefly flirted with SEA and RSA.

What was your best memory from college? Meeting my fiancee-to-be. And also acing a wicked hard Modern Physics exam. And acting for the first time on stage in a production of a senior's thesis project.

What were your fears about graduating? I'm assuming this will be a common refrain: I had no idea what I wanted to do, and I knew I'd miss the easy camaraderie of University life.

How do you feel about Brandeis since graduation and how do you think others perceive it? I work in an academic setting where everyone knows about Brandeis and a number of my senior colleagues actually went to Brandeis, so my attitude towards it has remained very positive.

How do you feel about the changes on campus (new president, many new buildings, etc.)?
I attended the inauguration ceremony for the new president (’twas my fiancee’s suggestion), and I think he's great -- charismatic and personable and just a righteous dude.

Who do you keep in touch with from Brandeis? I should probably mention my fiancee, Ava. I also go running twice a week with Rich Frank, and I regularly shoot the breeze with him and Dara Klein. And I had brunch in May with Marissa Collins and Amanda Milstein. Daniel Gandhi sadly eludes me.

What was your best memory from college? The Sherman Shuffle…only at Brandeis.

What were your fears about graduating? Going out of my own and being responsible for all that debt.

How do you feel about Brandeis since graduation and how do you think others perceive it? With the "scandals" behind it, I expect the university to continue enhancing its reputation in the academic and professional communities.

How do you feel about the changes on campus (new president, many new buildings, etc.)?

From my personal interaction with Fred, I think he's going to be great for the university. I think the buildings are part of the natural, organic growth. I only see good things going forward.

Who do you keep in touch with from Brandeis? People from my AIDE group (Nancy Rees), people on Student Union (including my wife, Erica), people from my spring break trip senior year (the Catskills crew), among many many others.

Working with children and animals has been a passion of mine since graduating. I have taught gymnastics and synchronized swimming for girls with disabilities. Teaching is a natural fit for me, and my love of calculus sent me in the direction of teaching high school math.
I've also traveled to The Netherlands, Germany, France, and Switzerland since graduating.
Taking care of my elderly grandparents has been a joy and an inspiration as I move forward with my career and my life.
Four years ago, I began ballroom dancing as a hobby, and joined the Brandeis Ballroom Dance Team. For other sports, I've been doing synchronized swimming. Recently, I also began rock climbing.

IV. Brandeis Memories

What was your favorite place to go on campus? The library's art book floor (the fourth floor or basement of the main library). I could spend hours riffling through those books.

Who was your favorite professor? Elizabeth Ferry, Anthropology Department.

What clubs or groups were you a part of? Uechi-Ryu Karate Club, BORG, Brandeis-Wellesley Orchestra, Early Music Ensemble

What was your best memory from college? Performing Beethoven's Symphony #9 with the Brandeis-Wellesley Orchestra. I was nervous about a solo I had toward the end of the piece, but the performance went splendidly.

What were your fears about graduating? What every other graduating senior worries about: what will I do with my life (except for those people who were in the pre-med program....)

How do you feel about Brandeis since graduation and how do you think others perceive it? Brandeis has a lot of good memories for me, good friends, great academics, and wonderful clubs. Part of me wishes I could have
gotten more out of my college experience, and I think a lot of others share my sentiment. (It is about time for our quarter-life crises, if I am not mistaken)

_How do you feel about the changes on campus (new president, many new buildings, etc.)?_  
The new president sounds wonderful, though president Reinhartz will be missed. Changes brought to the buildings on campus sound lovely, and are, from what I have seen. Gladly, the Rose Art Museum is still intact!

_Who do you keep in touch with from Brandeis?_ Dawn Miller, Jess Goldings, Judy Kaufman (formerly Judy Mark), David Fried, Neal Hampton, Sarah Mead, Elizabeth Ferry.

_What classmate has impressed you since graduation and why?_ Many of my classmates continue to impress me, for various reasons. Dawn Miller has excelled in law school (not surprisingly), and is beginning as a lawyer in Washington, DC. The sub-field she chose (environmental law) is very limited in size and very comp

Many things have come to light for me since graduation, and like this year's spring in New England, I'd consider myself a late bloomer. That said, I've learned a great deal, and relied on my Brandeis education, both academic and social, to give me the tools I need for success. As I look forward to a life with my wonderful boyfriend, as many dogs as I can fit in a house, and a career of teaching, the possibilities seem endless. Thanks to everyone who was patient and kind to me during my time at Brandeis. You know who you are, and you'll always have places in my heart!

IV. Brandeis Memories

Who was your favorite professor? Prof. Grace Zimmerman. Prof. Zimmerman opened my eyes to the world of marketing and gave me a passion for the subject. It was because of her that I pursued my masters degree at Emerson College.

What was your best memory from college? On August 29, 2002 I met this girl for the first time. She was digging my Star Wars shirt, which got us talking about all the fun things that make us nerdy. Little did either of us know, that about a year later we would start dating. We have been together for over 7 years now, and all this started at our Orientation.

What were your fears about graduating? What would I do with my degree in Economics? My degree did help me land a job at UBS Investment Bank in London. I was so happy to have the experience there and I know that my degree was invaluable.

How do you feel about Brandeis since graduation and how do you think others perceive it? Not only has Brandeis had a special place in my memories of my experience while attending, but I continue to call Brandeis "home" as I work for the Alumni Relations office in NYC. Meeting and catching up with alumni has been an incredible experience. It has been an incredible experience.

How do you feel about the changes on campus (new president, many new buildings, etc.)?

I was in shock when I heard Pres. Reinhartz was leaving and also when I saw the many changes to the campus. With that said, none of the changes have been bad. The new president is an incredible man, who shares the ideals of the Brandeis family. The new bu

Occupation: Press Secretary and Spokesman, Massachusetts Governor Deval L. Patrick

Adjunct Faculty, Emerson College

Occupation City: Boston

III. General Questions

What’s new since graduation? Grad School? Work? Travel?

I have been on a wild political roller coaster that began when I showed up as a volunteer for Deval Patrick on his first campaign for Governor while I was a second semester senior at Brandeis, bringing me to my current position as spokesman for the Governor at the State House. During that time I have had 7 different titles changes in 5 years, all of them working for him in some different capacity. It has been a wild ride. I also just recently began teaching political communications at Emerson College, which I absolutely love. Otherwise, I have been taking what rare free time I can find to continue to play rugby, travel sparingly (most recently on a trade mission to Israel with the Governor that was a peak experience). I am happy to report I still regularly hang out with many close Brandeis friends. Every summer, the Brandeis rugby alumni get together to play in one of the biggest rugby tournaments in New England in Acton, Massachusetts. It is always the highlight of the summer - and harkens me back to the days of scraping my knees up on Chapel's field before getting a quesadilla in Usdan.

IV. Brandeis Memories

What dorms/houses did you live in? Scheffres

East - Pomerantz

Ziv 127

Grad 171

What was your favorite place to go on campus? I'd have to say long lunches at Usdan, rugby practice on chapel's field, and red bull induced all nighters in Shapiro would rank the highest for me.

Who was your favorite professor? Tie between Prof. Eileen McNamara and Prof. Stephen Whitfield. Both had a tremendous impact on the path I have chosen.

What clubs or groups were you a part of? Brandeis Men's Rugby

The Justice

False Advertising
What was your best memory from college? All of my memories of the rugby team, and living in Ziv and Grad the last two years provide endless amounts of entertainment when I think back. Specifically, some of our rugby road trips up to Vermont and Maine to play teams that no one had ever heard of on fields that wouldn't even be fit for cattle were highlights.

What were your fears about graduating? By second semester of senior year I was spending most of my time during the day off campus working on the Deval Patrick campaign, so by the time graduation rolled around in the summer I was already pretty confident in the direction that I was going.

How do you feel about Brandeis since graduation and how do you think others perceive it? I've always held Brandeis in high esteem despite some of its recent PR challenges (I have a PR background, but I also realize hindsight is 20/20 on these things.) I've continued to be involved because deep down I do believe that Brandeis afforded me some great opportunities to reach some of my goals since graduation. I am still in regular touch with some of my professors, and it's been very, very fun to come back and visit their classes.

How do you feel about the changes on campus (new president, many new buildings, etc.)? New President seems like he's going to be a hit. Science Center looks immaculate. Looking forward to seeing more.

Who do you keep in touch with from Brandeis? On a weekly basis I am in touch with many of my old roomates and close friends, including Paul Flynn, Thomas Smith Vaughn, Jason Unger, Emily Unger, Krish Dutta, Dan Mauer, Edgar Ndjatou, Tae Youn Kim, Ryan Parker, Aaron Rothberg, Kelley Collachi and more!

What classmate has impressed you since graduation and why? Jason Unger is a personal hero. He is currently an officer in the US Army serving his residency at Walter Reed Medical Center in DC, tending to wounded soldiers as they return from Iraq and Afghanistan. I had the honor of being the best man at his weddi.

Occupation City: Hartford, CT

III. General Questions

What's new since graduation? Grad School? Work? Travel?

I graduated from UConn Law School in 2009 and have been working as a law clerk for a federal judge in Hartford for the past two years. In December, I proposed to my girlfriend, Elissa Glucksman '06, after four years of dating. We live together in West Hartford and recently set a date for our wedding: September 2, 2012. When my clerkship ends in August, we're moving to New York City, where I will join the law firm of Cole Schotz as an associate. Elissa and I are really looking forward to joining so many Brandeis alumni in NYC!

IV. Brandeis Memories

What dorms/houses did you live in? I had a pretty broad cross-section of Brandeis housing: Shapiro, a double in the Castle, a four-person Ridgewood, a five-person Grad, and a Village single. Living in Ridgewood as a sophomore was pretty awesome.

What was your favorite place to go on campus? The Shapiro Campus Center, and WBRS in particular. I really loved hanging out in the station and broadcasting in the studio.

Who was your favorite professor? William Leahy

What clubs or groups were you a part of? Phi Kappa Psi, WBRS, Admissions Tour Guides, Orientation Leaders, Skydiving Club, IM football/softball/basketball

What was your best memory from college? Despite the nonstop rain, Senior Week was the cherry on top of a wonderful four years. It was a lot of fun and the perfect way to bookend the college experience.

What were your fears about graduating? I was afraid of losing touch with all the friends I made at Brandeis. I was about to start law school and join a new group of classmates, and my Brandeis friends spread out all over the country and the world. Fortunately, this never became an issue -- I stayed close with lots and lots of people.
How do you feel about Brandeis since graduation and how do you think others perceive it? Nothing has changed how I feel about my Brandeis experience -- I loved it then, and I love it now. I got a great education, made great friends, and feel very proud of my alma mater. I wouldn't trade my four years there for anything. That said, it seems like Brandeis has lost its way at times. Between the Rose Art debacle, the financial struggles (including the Madoff impact), and the transition from Jehuda to Fred Lawrence, Brandeis has had some rocky moments in the past five years. All of those things hurt Brandeis's public image somewhat. But I'm confident that the administration is working hard to turn things around.

How do you feel about the changes on campus (new president, many new buildings, etc.)? I am really excited about Fred Lawrence. I like everything I've read about him, and I'm confident he is the right person to lead Brandeis right now. It also seems like Brandeis has become even more selective academically, which is always a good thing.

Who do you keep in touch with from Brandeis? Lots of people from the Class of 2006! Devin Carney, Dave Ostrowsky, Andrew Katz, Ben Wolinsky, Amanda Martin, Melissa Alter, Jackie Cooperman, Omer Rosenhand, Donnie Phillips, Debra Eichenbaum, Shoshana Speiser, Rachel Present, Catherine Heffernan, Lauren Apfelbaum, Adam Marks, Glenn Prives, and plenty of others too.

What classmate has impressed you since graduation and why? A lot of classmates have impressed me over the last five years, but I have to say, Dr. Jackie Cooperman stands out from the rest. She graduated from NYU Medical School and is now a resident at NY Presbyterian Hospital (her first choice). Despite working
